ANNUAL CONVENTION

Report of the Sunday School Conven tion Held at Spearville.

At Spearville, Wednesday and Thursday May 25 and 24, the Sunday School Association of Ford county held its annual convention.

A good program bad been prepared, opies of which appeared in the different papers of the county the week previous and this was carried out to the letter with three exceptions. Three of the speakers were absent but able substitutes were found for their parts.

The weather was very threatening during the entire two days; rain falling several times each day. This served to keep many away who were intending to be

in spite of this there was a larger attendance at the opening session than has been seen for several years, about thirty five being present, while the evening sessions reached close to the 100 mark. Outside of Spearville eleven schools were represented by nineteen delegates who were present during almost the entire convention while others dropped in oc-

The interest was good throughout, manifested by the close attention paid to the speakers, by the questions asked, and by the promptness in the discussion of the different enbjects,

The singing was in charge of Bro. T. J Davis, long time superintendent of Wilburn Sunday school, but recently moved over loto Gray course, who makes a very efficient lander.

the reports of the District Presidents, of the Superintendents present, and that of the secretary show the work to be in better shape over the county than in preeding years.

The Presbyterian school of Spearville is organizing a Cradle Roll and a Home department, grading the school, organizing each class and endeavoring to bring it up to the standard of the public school. Bucklin M. E. held graduation exercises giving diplomas to a class of boys and a class of girls, sent the primary superintendent to the State convention

and consider the money well spent.

Sodville is to the front in visitation. every family in the vicinity having been visited one or more times within the year. The address of Rev. F. W. Imboden on Wednesday evening was very strong. Among other good things he makes the statement that parents should be more firm about having their children attend Sunday school and church services. They compel them to go to the public school to Your money will be refunded if it educate their minds; they should be more does not benefit you. compel them to go to the public school to determined that they have the right spiritual teaching. The strength of the church depends upon the proper training

and dedication of the children. The address of State Secretary Engle on Phursday morning covered three subjects: Adult Organized classes, Teacher training, Grading.

In the evening he talked upon Parental Evangelism in the homes, urging the importance of the family altar and the use of the I. B. R. A. readings; The Great Teacher, bringing out the thought that no one can successfully teach geography or history without knowing the Lord Jesus and His methods.

All teachers of oblidren missed a great deal when they falled to hear Mrs. E. M. Wood's addresses and the review of the St. John lectures by Rev. Newport; both of which were on Thursday afternoon.

The financial outlook of the County Association is bright for the coming year. At the opening of the convention we lacked \$9. of enough to pay our obligations but Secretary Engle took hold of the matter in that whole-hearted manner of his and secured enough to pay off that and leave us over \$20 to the treasury and pledges from eleven achools amounting to 847, with sixteen schools to hear from. Two of the Dodge schools pledged \$10.

Now if you had heard our old friend, Mr. C. D. Wood, tell of the benefits of the state convention methinks you would want to go to the next one or better still help to send some one else who has labor-ed faithfully in your school for a long while unrewarded.

The reports of the different committees will appear later, probably next week.

"NO CURE, NO PAY"

How Rath & Bainbridge Sell Hyomei, the Guaranteed Cure for Catarrh.

Rath & Balobridge have an unusual fier to make to our readers, one that will be of the greatest value to many. For some years Bath & Balobridge have

been watching the results from the use of Hyomel, a treatment for catarrh that cures by breathing medicated air, absolutely without any stomach dosing. The results have been so universally successful that they feel justified in making a public offer to treat the worst case of catarrh in Dodge City with the understanding that if Hyomel does not cure, the treatment

will cost absolutely nothing.

People who have spent large sums with catarrh specialists, deriving but little benefit, or the many who have awallowed stomach remedies in the vain hope of curing catarra, have experienced almost immediate relief from the nec of Hyomei, while the continued treatment for a short time, has resulted in a complete and last-

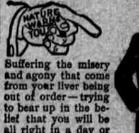

ing cure. The regular Hyomei outfit costs only one dollar, and consists of a next pocket inhaler that can be carried in the purse or vest-pocket, a medicine dropper, and a bottle of Hyomel. If this is not enough for a cure, extra bottles of Hyomel can be obtained for 50 cents.

Rath & Balubridge positively guarantee a cure, if Hyemel is used in accordance with directions, or they will refund the

Review of Weather.

For week ending Wednesday, June 3 1906, as furnished by T. J. Considing of the local Weather Burear. The weather conditions, rainfall and

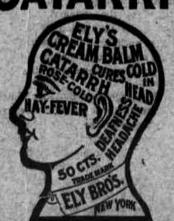

mperature were favorable; although the former element is slightly below, and the temperature is slightly above the average of the past thirty two years. The sheat temperature during the week was 93 degrees and thelowest 58 degrees with an absolute range of 40 degrees. The total rainfull for the week was .66 of an noh and this amount compared with the average of 32 years shows an actual de-Sciency of .18 of an inch. Should the normal conditions of rain and temperaare prove true, we ought to have during the coming week 27 of an inch of rain with an average daily temperature of 87

Arkansas Underflow.

A publication of great interest to al irrigators to the Arkansas Valley in west ern Kansas has just been legued by the United States Geological Survey as Water Supply and Irrigation Paper No. 108. In this paper are described the results of investigations by C. S. Slichter of the underflow in the civinity of Garden City, Sherlock and Deerfield. The work showed that carefully constructed wells in the Arkaneas Valley ere capable of yielding large amounts of water and that private pumping plants in the bottom lands will pumping plants in the proper be profitable for irrigation if the proper which kind of power be used. This paper, wh may be obtained on application to the Director of the United States Geological Survey, Washington, D. C., contains also detailed tests of a number of small pumping plants used for irrigation in the Arkansas Valley between Garden and Lakin, Kensas. The pumping plants tested are described in detail and statements of cost are given. These costs are reported for each acre foot and for each 1,000 gallons raised one foot. At the end of the paper there is given a test of a producer gas pumping plant near Rocky Ford, Celorado. The plant described is a typical successful producer gas plant. The results are of great in crest, as in the Arkansas Valley the present cost of pumping with gaseline for fuel is not encouraging, and there should be a large field of usefulness for gas producer plants, using Colorado hard coal or coke or Kansas crude oil for

Following The Flag.

When our soldiers went to Cuba and the Philippines, health was the most important consideration. Willis T. Morgan, retired Commissary Seageant U. S. A., retired Commissary Seageant U.S. A., of Rurai Route I, Concord, N. H., says: "I was two years in Cuba and two years in the Philippines, and being subject to colds, I took Dr. King's New Discovery for Consumption, which kept me in perfect health. And now, in New Hampshire, we find it the best medicine in the world for coughs, colds, bronchial troubles and all long diseases. Guaranteed at Rath & Bainbridge, druggist. Price 50c and \$1. Trial bottle free.
